

No.4/PR/V/2018

CLARIFICATION OF CLEAN WATER LEAKAGE IN CENTRAL PARK MALL & OPERATIONAL CONDITIONS MALL BACK TO NORMAL

PRESS RELEASE

Jakarta, May 22 2018, Central Park Mall Management informed that there was a leakage of water pipe on Monday, May 21, 2018 at around 13:15 pm at Central Park Mall LG floor in front of supermarket area. Leakage problems and the condition of the surrounding area has been quickly overcome and mall operational is back to normal without any impact at around 15:00 pm yesterday.

We also need to clarify that were so many misleading news The leakage is not caused by leakage water from fish pond nor leakage of dirty toilet water, but because of leakage of clean water. The look like a dirty water at the beginning of the leakage was the water mixed by dust of the ceiling. In addition, there was no closure of all access to the LG floor, except for limited area around the leak site during leakage and cleaning process of the leakage areas.

Central Park Management apologizes for the inconveniences.
